

WHAT DO YOU NEED TO KNOW WHEN ATTENDING A YOUTH ACTIVITY THIS SUMMER?

What is a youth activity?

It's an activity organized by a youth organization, such as a camp, playground, youth centre, etc.

WHAT ARE THE RULES FOR YOUTH ACTIVITIES THIS SUMMER?

You are not allowed to take part:

- if you are sick
- if you have been sick in the 5 days leading up to the activity

- if you belong to a high-risk group and your parents or doctor do not want you to participate

Camps and activities will consist of regular groups of no more than 50 people.

This regular group can eat, play, sleep, etc. as a group

It is best to choose one type of activity per week.

For example, a camp for one week and a playground for the other week. The more activities you combine, the more likely the virus is to circulate.

The regular groups will not have any contact with other groups or with outside people.

Do you see people from other regular groups or activities? Then keep a 1.5-meter distance.

The supervisors will make sure that everything is clean, and everyone stays healthy. They will also clean and air out tents and buildings more often.

Wash your hands often. Cough and sneeze into your elbow.

This year, there is no visiting day and no performance day for the parents.

There will be more time to rest. This prevents you from getting sick.
